Stay safe and protected . . . wherever you are.

With **HelpButton** you can get help
wherever and whenever you need it:

- **Powerful Speaker**
- **Sensitive Microphone**
- **Nationwide Cellular Coverage**
- **Enhanced Location Services**
- **Extended Battery Life**
- **Shower-Safe**
- **Optional Fall Detection**

Enhanced Location Services

HelpButton uses a proprietary combination of GPS Satellite and WiFi data to provide the most accurate location available.

How it Works

Press your help button

A signal is sent to our monitoring center when you press your button.

Get assistance

With Flash Response, a TMA certified care specialist will answer your call within seconds.

Help is on the way

If necessary, family, friends, neighbors, or EMS will come to help.

In case of emergency.

Calling for help.

Press and hold the help button until you hear the alert tones.

- A TMA certified Care Specialist will answer the call by asking if you are OK.
- Explain the situation and provide your location to the Care Specialist.
- If you are unable to speak, the Care Specialist will attempt to determine your location using GPS information.
- The Care Specialist will follow your customized emergency action plan and can reach out to loved ones and emergency services.

Fall Detection *(optional)*

For devices with Fall Detection enabled, if you are unable to press the help button and a fall is detected, the device sends an emergency fall alert to a Care Specialist.

Test your **HelpButton** monthly
